1	16 janvier 2023	Crystal Awards Ceremony 2023	Impact climat	04-Culture	At the opening ceremony of the World Economic Forum Annual Meeting 2023, meet the winners of the 28th Annual Crystal Awards. This year's awardees are four exceptional cultural leaders who are being honoured for their work to promote environmental conservation, food security, climate change, mental health and education.
2	16 janvier 2023	I sea You		04-Culture	The opening concert, entitled "I Sea You", is a powerful cultural message of unity and collaboration, and a call to action to world leaders and policy-makers to implement the appropriate and required agreements to protect and preserve the coral reefs of the Northern Red Sea.  "I Sea You" features exclusive performances by internationally acclaimed award-winning artists including singer, songwriter, composer and activist Noa, also known as Achinoam Nini, accompanied by her longstanding musical collaborator Gil Dor; Egyptian soprano Fatma Said, accompanied by German pianist, composer and arranger Tim Allhoff; and Jordanian virtuoso Farah Siraj, accompanied by guitarist, composer and producer Andreas Arnold.  The Morphing Chamber Orchestra features world-renowned oud virtuoso Joseph Tawadros and percussionist James Tawadros.  The concert also includes an immersive backdrop featuring footage of the Red Sea corals filmed by environmentalist and deep-sea diver Nouf Alosaimi, as well as imagery by Coral Morphologic.
3	16 janvier 2023	Open Forum: In Harmony with Nature	Impact climat	12-Environnement	Climate change is an undeniable reality. Current lifestyles and organisational practices need to change if we hope to restore the health of the planet and protect the well being of current and future generations.  How do we mobilize action towards climate positive lifestyles?
4	17 janvier 2023	Philanthropy: A catalyst for Protecting Our Planet	Impact climat	04-Culture	Only 2%, (between \$US 7.5-12.5 billion) of global philanthropy goes towards climate action but there is fast-growing philanthropic interest to use their tools to help corporates and governments. How can public and private sector players better harness the power of catalytic philanthropy to close the \$100 trillion gap for equitable climate and nature solutions by 2050?  This session launches GAEA's Call to Action, the World Economic Forum's new global effort to raise additional, smarter and catalytic giving to unlock and de-risk private finance and government-procured funds for climate and nature at speed, scale and impact.
5	17 janvier 2023	Press Conference: Global Collaboration Village		03-Gouvernance	Join the press conference to learn about the working prototype of the Forum's Global Collaboration Village in partnership with Accenture and Microsoft. This purpose
6	17 janvier 2023	Quiet Quitting and the Meaning of Work		14-Travail	From quiet quitting to the great resignation, what are the symptoms of a changing relationship between workers and employers and how are businesses managing
7	17 janvier 2023	De-Globalization or Re-Globalisation		02-Vision	The ties that bind the world economy together have frayed in recent years. Has globalization reached the end of the line or is a resurgence on the cards?
8	17 janvier 2023	Mastering New Energy Economics		11-Ressources	Energy systems have experienced a series of shocks, forcing many governments to step in to protect citizens and companies from skyrocketing prices while scrambling to shore up national energy security.  As decisions-makers worldwide strive to craft energy strategies for the year ahead, how can they reconcile energy resilience, affordability and sustainability?  This session was developed in collaboration with CNN.  This session is directly linked to the ongoing work of the Platform for Shaping the Future of Energy, Materials and Infrastructure of the World Economic Forum.
9	17 janvier 2023	In Defense of Europe		07-Défense	Following last year's landmark Versailles summit bolstering Europe's defence capabilities and Denmark's successful referendum to join Europe's defence policy, are we witnessing the birth of a European defence union?  This session was developed in collaboration with Politico.
10	17 janvier 2023	Staying Ahead of a Recession		08-Economie	With the risk of a recession in 2023 continuing to loom over major economies, what steps can leaders take to make a potential recession as short and as shallow as
11	17 janvier 2023	Financial Institutions: Innovating under Pressure		01-Fragmentation	At a time of large-scale macro shocks, how do financial actors respond to ongoing disruptions while keeping pace with technological advancement?
12	17 janvier 2023	A conversation with 2023 Crystal Awardee Renée Fleming	Impact climat	04-Culture	Join the acclaimed singer and 2023 Crystal Awardee as she talks about her work at the intersection of art, neuroscience and health, and the powerful impact of music and the arts on childhood development, healthy ageing and mental health.
13	17 janvier 2023	Sport in industry and Society		10-Industrie	The rising demand for sport is leading organizations to explore innovative ways to capture engagement and brand value in light of digital disruption while using its power to shape healthier and inclusive communities.  How can sport advance economic growth and social impact?
14	17 janvier 2023	Open Forum: Sustainability Served	Impact climat	15-Santé	Nearly 830 million people face food insecurity and more than 3 billion are unable to afford a healthy diet. Challenges to human and planetary health have been further compounded by rising costs, supply chain disruptions and climate change.  How can we strengthen the connections between food-nature-health for more affordable, healthy and sustainable diets?  This session is directly linked to the ongoing New Frontiers of Nutrition Initiative of the World Economic Forum.
15	17 janvier 2023	Preparing 1 Billion People for Tomorrow's Economy		13-Justice sociale	With 1 billion jobs liable to be radically transformed by technology in the next decade, what critical interventions are needed to provide better skills, jobs and education for 1 billion people by 2030?  This session is directly linked to the ongoing Reskilling Revolution initiative of the World Economic Forum.
16	17 janvier 2023	Decarbonization: An Insurmountable challenge?		09-Technologie	Purchasing commitments offer the potential to create new markets for innovative clean technologies, sending demand signals to enable the upfront investment and development of green products critical to the net-zero transition of economies.  What are the additional policy and financial levers needed to reduce the risk premiums associated with new and nascent technologies?  This session is directly linked to the ongoing Financing the Transition to a Net-Zero Future Initiative of the World Economic Forum.

17	17 janvier 2023	Technology for a More Resilient World		09-Technologie	<p>In the face of a challenging decade, technology can be a critical tool in the transition to a cleaner, safer and more inclusive world.</p> <p>How should leaders be thinking about the strategic opportunities for technology to be an accelerator of progress in this new context?</p> <p>This session was developed in collaboration with The Atlantic.</p> <p>This session is directly linked to the ongoing work of World Economic Forum's Digital Transformation of Industries initiative.</p>
18	17 janvier 2023	China 's next chapter		06-Géopolitique	<p>Following the 20th party congress, what are the key economic and political decisions affecting China's global government and business relations?</p> <p>This session was developed in collaboration with Caixin Media.</p>
19	17 janvier 2023	The Geopolitics of Industry		01-Fragmentation	<p>From the use of sanctions to technology supply shocks, how can business leaders adapt to a world of increased geopolitical fractures?</p>
20	17 janvier 2023	Gender Parity for Economic Recovery		05-Société	<p>As a critical determinant for economic growth and financial stability, gender parity is increasingly integrated into economic policy and investment decisions.</p> <p>What are the key pathways for gender parity to accelerate economic growth and recovery?</p> <p>This session was developed in collaboration with CNBC-TV18.</p> <p>This session is directly linked to the insights generated through the Global Gender Gap Report and the ongoing work of the Gender Parity Accelerators and the Global Parity Alliance of the World Economic Forum.</p>
21	17 janvier 2023	Cultural Leaders as a Catalyst of Change with Refik Anadol	Impact climat	04-Culture	<p>Join media artist Refik Anadol as he guides us through his collaborative work with business corporations, educational institutions, scientists, designers and architects to discover and develop trailblazing approaches to data narratives and artificial intelligence.</p>
22	17 janvier 2023	Travelling Again, Differently		12-Environnement	<p>In the first seven months of 2022, tourism arrivals reached almost 60% of pre-pandemic levels, with a surge of demand following border reopenings around the world.</p> <p>How are leaders transforming their organizations and practices to ensure the sector can channel this uptick towards a more resilient and sustainable tourism future?</p>
23	17 janvier 2023	Press Conference: PhilanthropicPublic-Private Partnerships for climate & nature	Impact climat	03-Gouvernance	<p>Join the press conference for the launch of a new effort - a new generation of Philanthropic-Public-Private Partnerships (PPPP) for climate and nature - to catalyze the speed and scale of public and private sector action and finance to address the climate and nature crises.</p> <p>Climate Works Foundation's latest report states that less than 2% of global philanthropy currently goes to climate mitigation.</p>
24	17 janvier 2023	Welcoming remarks and special address		03-Gouvernance	
25	17 janvier 2023	Special Message from Olena Zelenska, First Lady of Ukraine		07-Défense	
26	17 janvier 2023	Special Address by Ursula von der Leyen, President of the European Commission		06-Géopolitique	
27	17 janvier 2023	Special Address by Liu He, Vice-premier of the people's Republic of China		06-Géopolitique	
28	17 janvier 2023	Open Forum: Protecting the climate Vulnerable	Impact climat	12-Environnement	<p>Nearly half of the world's population is severely affected by increasingly dangerous climate change, according to a 2022 IPCC report.</p> <p>Listen to the voices of our global youths on what leaders must do to promote justice and provide support to communities most affected by the climate crisis.</p>
29	17 janvier 2023	Ukraine: what next?		07-Défense	<p>Nearly one year since the start of the war, Ukraine has surpassed all expectations in its ability to defend itself against Russia.</p> <p>What is the outlook for the conflict and horizons for Ukraine's post-war reconstruction?</p>
30	17 janvier 2023	Democracy: the way forward		01-Fragmentation	<p>As democracy comes under increasing pressure, what can leaders do today to strengthen democratic systems?</p>
31	17 janvier 2023	End Plastic Pollution: Multilateral Cooperation as its Best		12-Environnement	<p>Every minute, one garbage truck of plastic waste is dumped into the ocean. The UN Treaty on Plastic Pollution seeks to create a legally binding treaty to end such pollution on a global scale, in the most significant multilateral environment deal since the Paris Agreement.</p> <p>From production to design to disposal, what actions are needed by all sectors to ensure an ambitious agreement?</p> <p>This session is directly linked to the ongoing Global Plastic Action Partnership of the World Economic Forum.</p>
32	17 janvier 2023	Big Bets for Digital Industries		09-Technologie	<p>Accelerated adoption of technologies such as 5G, artificial intelligence and internet of things can drive sustainable transformation of industries and sustainable economic growth.</p> <p>How should business and government focus their investment priorities to deliver on this promise?</p> <p>This session is directly linked to the ongoing work of World Economic Forum's Digital Transformation of Industries initiative.</p>
33	17 janvier 2023	Brazil: A new Roadmap		06-Géopolitique	<p>From a global economic slowdown to domestic demands, the challenges facing the new Brazilian government are significant but also present great opportunities.</p> <p>Join this conversation with leaders from the country's newly inaugurated government to learn about the economic, social and environmental roadmap.</p>
34	17 janvier 2023	Economics of Women's health		15-Santé	<p>Investing in women's health will potentially contribute to economic and social development, not only for individual women but also for their families, communities, and societies.</p> <p>Why do gendered health and well-being gaps continue to persist and what policies and actions are needed to improve the situation?</p> <p>The session has been developed as part of the Women's Health Initiative of the World Economic Forum.</p>

35	17 janvier 2023	Attracting Talent		14-Travail	The COVID-19 pandemic has had a profound effect on labour markets, with millions of workers leaving their jobs and employers facing labour shortages. How should employers adapt to attract the best talent?
36	17 janvier 2023	A conversation with Idris Elba and Sabrina Elba	Impact climat	04-Culture	
37	17 janvier 2023	2023 explained: Chief Economist Briefing		08-Economie	The outlook for the global economy in 2023 is precarious, according to the World Economic Forum's latest survey of chief economists. Join this media briefing with leading economists from around the world to discuss the emerging economic landscape and the decisions that lie ahead for policy-makers in 2023 and beyond.
38	17 janvier 2023	Relaunching trade, Growth and Investment		13-Justice sociale	Flows of capital, goods, services and people have boosted productivity and living standards, tripling the size of the global economy over the past three decades. However, tensions over trade and investment are undermining growth and trust. As the cost of further disintegration severely outweighs the benefits, how can leaders reshape the current system to develop a new agenda for trade, growth and investment? This session is directly linked to the ongoing work of the Trade and Investment Platform of the World Economic Forum.
39	17 janvier 2023	Schwab Foundation for Social Entrepreneurship award Announcement	Impact climat	04-Culture	The Schwab Foundation announces the 2023 Social Innovators of the Year.
40	17 janvier 2023	A conversation with Sanna Marin, Prime Minister of Finland		06-Géopolitique	
41	17 janvier 2023	Private Equity in the real Economy		08-Economie	Maximizing impact across the risk/return continuum and alternative asset classes has become a fast-growing trend within the investing industry. How does private equity transform the real economy through its increased focus on impact?
42	17 janvier 2023	Unpacking the Polar Crisis		12-Environnement	The poles are warming up to four times faster than the rest of the planet, destabilizing permafrost, ancient glaciers and sea ice. As such, the Arctic and the Antarctic are the Earth's "canary in the coalmine". Explore the connection between the health of the poles and the health of the planet and how Indigenous communities are promoting harmony with nature in their way of life.
43	17 janvier 2023	Keeping the Lights on amid Geopolitical Fracture		01-Fragmentation	From energy to food to humanitarian relief, where are the concrete opportunities for progress on urgent global challenges despite the strong tides of geopolitical an
44	17 janvier 2023	Stemming the Cost of Living Crisis		13-Justice sociale	With inflation soaring and real wages falling, the global cost of living crisis is hitting hardest the most vulnerable in societies. Are orthodox responses sufficient or do policy-makers need a new toolkit? This session was developed in collaboration with Bloomberg Television.
45	17 janvier 2023	Securing Critical Infrastructure		07-Défense	As hybrid attacks become more sophisticated, how can business and political leaders mobilize a collective response to safeguard critical assets and mitigate systemic damage? This session is directly linked to the Cyber Resilience in Oil and Gas and Cyber Resilience in the Electricity Ecosystem Initiatives of the World Economic Forum.
46	17 janvier 2023	Women's rights in Iran-What next?		06-Géopolitique	2022 saw a wave of women led protests in Iran, earning widespread international solidarity. What is the outlook for Iranian women in 2023, and how do we secure their civic space
47	17 janvier 2023	Disrupting distrust		01-Fragmentation	Trust is at the heart of meaningful multistakeholder cooperation and is essential for making progress on current crises, yet levels of distrust are higher than ever. How are civil society leaders working with business and government to advance social integration, public action and effective multistakeholder collaboration?
48	17 janvier 2023	Data Collaboration: lessons from field		01-Fragmentation	In the face of global shocks and fragmented systems, collaboration is essential to unlock the value of data for society. What examples of data collaboration for public good can be scaled internationally and applied across domains? This session is directly linked to the Centre for the Fourth Industrial Revolution's Data Policy Platform initiatives on Data for Public Goods at the World Economic Forum.
49	17 janvier 2023	See you in Court! The rising Tide of Climate Litigation	Impact climat	03-Gouvernance	We truly live in the age of climate litigation. The total number of climate change legal actions issued globally is about 2,000 cases, covering some 43 countries, with around a quarter issued in the past two years. Could this rapidly evolving field create a tipping point in climate law? And what could be the potentially far-reaching implications for shaping the climate response of countries and companies, including with regard to the much discussed issue of loss and damage?
50	17 janvier 2023	Special Address by Pedro Sanchez, Prime Minister of Spain		06-Géopolitique	
51	17 janvier 2023	Thinking the unthinkable: the risk of nuclear confrontation		07-Défense	The risk of nuclear proliferation, and even confrontation, has re-emerged. With threats escalating from Russia, arms testing increasing on the Korean Peninsula and
52	17 janvier 2023	The clear and present danger of disinformation		01-Fragmentation	How can the public, regulators and social media companies better collaborate to tackle disinformation, as information pollution spreads at unprecedented speed and
53	17 janvier 2023	War in Europe: Year 2		07-Défense	What are the policy pathways to take and the points of vulnerability to address in Europe in the coming year as it grapples with the multidimensional effects of the war in Ukraine? This session was developed in collaboration with Euronews.
54	17 janvier 2023	Power of the Collective – 2023 Social Innovation Awards		05-Société	For 25 years, the Schwab Foundation for Social Entrepreneurship has recognized and supported the world's leading social innovators for their collective efforts in creating a just, equitable and sustainable world for all. Join us for the 2023 Schwab Foundation Social Innovation Awards ceremony to celebrate this year's 16 outstanding changemakers.

55	17 janvier 2023	Tokenized Economies, Coming Alive		09-Technologie	<p>Tokenization can allow almost any real world asset to have a digital representation on a blockchain. Given its transformational potential, which sectors will see the biggest influence from tokenization in terms of resilience, innovation and social impact?</p> <p>This session is directly linked to the ongoing work of the World Economic Forum's Digital Currency Governance Consortium.</p>
56	17 janvier 2023	Ending Tuberculosis: how do we get there?		15-Santé	<p>In 2021, more than 10 million people fell ill from tuberculosis and 1.6 million people died. Effective vaccines would undoubtedly be the best solution to prevent and potentially eradicate TB. However, no new TB vaccine has been licensed in 100 years. The prospects for novel effective TB vaccines have improved recently, with at least 16 vaccine candidates under development.</p> <p>What mechanisms can accelerate development and deployment of safe and effective TB vaccines?</p>
57	17 janvier 2023	Generative AI		09-Technologie	<p>As artificial intelligence moves from analysing existing data to creating new text, images and videos, how will these improvements shift the augmentation versus a</p>
58	17 janvier 2023	Infrastructure for a clean energy economy		10-Industrie	<p>From hydrogen to metals mining and processing to battery production, the transition to more sustainable, accessible and productive energy systems depends on the availability of critical materials and the enabling infrastructure.</p> <p>How can it be galvanized against geopolitical, supply chain and technological vulnerabilities?</p> <p>This session was developed in collaboration with TIME.</p>
59	17 janvier 2023	Crisis to watch		01-Fragmentation	<p>While the conflict in Ukraine has dominated headlines since February, a number of other crises and worrying trends are affecting millions of people around the world and deserve international attention and action.</p> <p>Join us for a discussion of how widening inequality gaps, debt decay and impending famine will impact economies and societies in 2023 and what actions the international community must take to prevent the worst possible outcomes.</p>
60	17 janvier 2023	Press Conference: The Future of Jobs		14-Travail	<p>Technological disruption, economic and political crises, and the green transition will require millions of people to re-invent their livelihoods and build the skills needed in the labour markets of tomorrow. Hear from leaders at the forefront of these developments on how we can put people first and place human capital investment at the heart of the global recovery.</p>
61	17 janvier 2023	Cultural Leaders as a catalyst of Change with Max Frieder	Impact climat	04-Culture	<p>Join artist, educator and thought leader Max Frieder as he immerses us into the challenging yet creative lives of refugee youth in camps across the globe. With art as an outlet, the youth have found methods to articulate their trauma and express their hopes for the future.</p>
62	17 janvier 2023	A conversation with Henri Kissinger: historical Perspectives on War		07-Défense	
63	17 janvier 2023	The Interplay of Food, energy and water		11-Ressources	<p>While the world is facing a global energy crisis, an estimated 2.3 billion people lack access to adequate food and the global inflation rate is estimated to rise to 7.5% by the end of 2022. This is exacerbated by a looming water crisis, with droughts and floods further threatening food production and human health.</p> <p>What are the critical vulnerabilities and how can leaders provide targeted interventions through the food-energy-water nexus?</p> <p>This session was developed in collaboration with The New York Times.</p>
64	17 janvier 2023	Bending the emissions curve		12-Environnement	<p>The planet is rapidly approaching the emissions cliff.</p> <p>Which solutions will be most effective, both in cost and time, in lowering emissions over the next decade?</p> <p>This session was developed in collaboration with CNBC.</p> <p>This session is directly linked to these ongoing Initiatives of the World Economic Forum: Road Freight Zero, Getting to Zero Coalition, First Movers Coalition and Clean Skies for Tomorrow.</p>
65	17 janvier 2023	The return of manufacturing		10-Industrie	<p>The ongoing disruptions have underscored the crucial importance of manufacturing for the health of the global economy and well-being of society.</p> <p>What will manufacturing look like by 2030 and what role will it play?</p> <p>This session is directly linked to the ongoing work of the Platform for Shaping the Future of Advanced Manufacturing and Value Chains of the World Economic Forum.</p>
66	17 janvier 2023	Protecting cyberspace and exponential change		07-Défense	<p>The confluence of rising cyberattacks and a complex geopolitical backdrop creates an increasingly challenging environment for decision-makers to predict, prioritize and respond to cyber risks.</p> <p>How can leaders foster a more secure and resilient digital ecosystem to prepare for future cyber shocks?</p> <p>This session builds directly on the Global Cybersecurity Outlook report published annually by the World Economic Forum.</p>
67	17 janvier 2023	Latin America, analysed		06-Géopolitique	<p>New political shifts in Latin America are increasing attention on the region, while polarization and a challenging economic outlook are putting a strain on its capacity to deliver on social, economic and political expectations.</p> <p>What are the key transformations taking place in region, and how can it succeed in the current context, proving forecasters wrong and coming out stronger?</p>
68	17 janvier 2023	The jobs and skills of a green transition		14-Travail	<p>Moving towards a low-emission economy will require the creation of millions of "green" jobs.</p> <p>Who will create these jobs and how to ensure workers have the right skills to transition into them?</p>
69	17 janvier 2023	America unbound		06-Géopolitique	<p>What can we expect from a reshaped legislative landscape in the United States as it relates to domestic and foreign policy?</p>

70	17 janvier 2023	Open forum: propelling planetary prosperity		09-Technologie	Technology has played a catalytic role in augmenting human resilience, from "natural" technologies that evolved over thousands of years to cutting-edge science and its varied applications. How are youth harnessing their creative potential to innovate for the prosperity of the planet?
71	17 janvier 2023	Press conference: Mykhailo Fedorov		07-Défense	
72	17 janvier 2023	Reaching for the stars with Nuclear Fusion		09-Technologie	As the need to reach net zero becomes ever more acute, scientific research and breakthrough could hold the key to achieving this goal. What does the recent achievement of energy gain in the fusion reaction mean for the potential of this technology as a viable alternative to fossil fuels?
73	18 janvier 2023	Taking stock of 75 years of Human rights		05-Société	The year 2023 commemorates the 75th anniversary of the Universal Declaration of Human Rights, setting out the fundamental human rights and freedoms to which we are all entitled. This session explores the state of human rights around the world against a backdrop of geopolitical fragmentation and conflict.
74	18 janvier 2023	Why we need battery passports		13-Justice sociale	Batteries power the energy transition to a sustainable future but require critical minerals, the extraction of which comes with environmental and human rights risk, including child labour. How can a battery passport contribute to protecting human rights, safeguarding the environment and informing consumer decision-making? This session highlights and builds on the work of the Global Battery Alliance, an initiative incubated by the World Economic Forum.
75	18 janvier 2023	Saudi Arabia's transformation in a changing global context		06-Géopolitique	Dynamics related to energy security, geopolitical competition, trade and supply chain fragmentation are at the heart of global discussions to address the ensuing near-term implications while resolving the systemic issues at their core. How is Saudi Arabia navigating this complex global context?
76	18 janvier 2023	Stewarding responsible capitalism		01-Fragmentation	With environmental, stakeholder, economic and geopolitical pressures on the mind of leaders around the world, the legitimacy of the sustainability reporting systems is being challenged politically in some jurisdictions, while others are pushing ahead with ambitious efforts that will leave key stakeholders behind.
77	18 janvier 2023	Reinventing the Wheel		10-Industrie	The automotive industry is in the middle of a once-in-a-century transformation: from electrification to circularity, from connectivity and automation, to as-a-service business models.
78	18 janvier 2023	The Future of Jobs		14-Travail	What impact will the green transition, technological advances, demographics and reorganized value chains have on labour markets globally in the next five years? This session is directly linked to the ongoing work of the Jobs Consortium initiative of the World Economic Forum.
79	18 janvier 2023	State of the Pandemic		15-Santé	How can the world shift its COVID-19 strategy from pandemic response to endemic management and close the persistent gaps in access to diagnostics, therapeutics and health services? This session was developed in collaboration with Euronews.
80	18 janvier 2023	The Quantum Tipping Point		09-Technologie	Quantum technologies have massive potential in a wide array of domains, from finance to energy.
81	18 janvier 2023	Japan's Path to Economic Revival		08-Economie	The world's third-largest economy faces an uncertain path amid slowing growth and rising inflation, supply chain constraints and a weakening yen. How can Japan revitalize its economy while taking a leading role in regional cooperation frameworks?
82	18 janvier 2023	Tradetech meets Fintech		10-Industrie	With these technologies holding the promise of unleashing new discoveries, security and performance, how close are we from a true quantum revolution of industries?
83	18 janvier 2023	A conversation with Cultural Leader Noa	Impact climat	04-Culture	A conversation with Achinoam Nini, professionally known as Noa, an acclaimed singer, songwriter, poet, composer, percussionist, speaker and activist. Considered Israel's most prominent advocate of cross-cultural collaborations and peacemaking, what role has Noa's work played at the challenging intersections she has found herself?
84	18 janvier 2023	Open Forum: Nature Heals		12-Environnement	More than 1 in 2 persons live in cities, with the average person spending almost 7 hours per day in front of a screen. What are the effects of current lifestyles on the man-nature relationship and the overall human health and wellbeing?
85	18 janvier 2023	Press Conference: Global Cybersecurity outlook 2023		07-Défense	Geopolitical developments and the implementation of emerging technologies have re-shaped the cyber-threat and increased organized cyber-attackers' potential for harm. This is exacerbating our interconnected energy, economic and geopolitical crises. The Global Cybersecurity Outlook 2023 examines the cybersecurity trends that will impact our economies and societies in 2023. The report includes the results of new research on how leaders are responding to cyber threats now and provides recommendations on what leaders can do to secure their organisations in the year to come.
86	18 janvier 2023	Rewiring the Globe for Resilience	Impact climat	01-Fragmentation	In the face of continuous cycles of disruption, countries and companies have started to devise their own resilience plans, with investment in infrastructure emerging as essential to drive both the economic and climate agendas. How can these actors invest and work together to build sustainable and inclusive economic growth? This session is directly linked to the work of the Resilience Consortium of the World Economic Forum.
87	18 janvier 2023	India's Road to a 10 trillion Economy		08-Economie	From financial sector reforms to developing new industries, what concrete actions will drive India's economic transformation over the coming decade? This session was developed in collaboration with CNBC-TV 18.
88	18 janvier 2023	Cultural Leaders as a Catalyst of Change with Maya Lin	Impact climat	04-Culture	Join 2023 Crystal Awardee Maya Lin, the artist of the celebrated Vietnam Veterans Memorial in Washington DC and other highly acclaimed art and architectural works, as she guides us through her fifth and last memorial to species and places that are either extinct or will likely disappear in our lifetime if we do not act to protect them.
89	18 janvier 2023	The Pulling power of asean		01-Fragmentation	ASEAN's role as a mediator amid intensifying geo-economic competition and as a "centre of gravity" for bringing together otherwise incompatible powers cannot be underestimated in the fragmented global landscape.

90	18 janvier 2023	Fiscal Expansion: a welcome return or ticking bomb		08-Economie	With growth slowing and debt-servicing costs rising, how can governments balance fiscal prudence and the need to drive long-term investments?
91	18 janvier 2023	The electric decade		10-Industrie	The 2020s have to be the electric decade. Globally, by 2030, clean power capacity must increase by three times what it is today. Energy consumption too must become increasingly based on electricity, from the current 20% share to 50% or more by 2050.  From infrastructure to industry consumption transformation, what levers are needed to accelerate this transition?  This session is directly linked to the ongoing Clean Power and Electrification Initiative of the World Economic Forum.
92	18 janvier 2023	The building blocks of connectivity		09-Technologie	Digital health, finance and education are crucial in a post-COVID world, with internet connectivity playing a key role in how people access these services. While coverage has improved, low affordability and digital skills remain the top barriers to usage.
93	18 janvier 2023	Banking in the eyes of the storm		08-Economie	Since the global financial crisis, the banking sector has had to tighten its regulatory framework, adapt to stringent capital, liquidity and risk-taking policies and sustain stress-testing scenarios.  In the midst of turmoil in global markets, tightening monetary policies and fears of global recession, will the "too safe to fail" model ensure the banking system is ready to deploy capital and support the economic recovery?  This session was developed in collaboration with Bloomberg News.  This session is directly linked to the ongoing work of the Platform for Shaping the Future of Financial and Monetary Systems of the World Economic Forum.
94	18 janvier 2023	Special address by Aziz Akhannouch, head of government of Morocco		06-Géopolitique	
95	18 janvier 2023	Special Address by Antonio Guterres, secretary-general, United Nations		06-Géopolitique	
96	18 janvier 2023	Twinning energy with Digital		09-Technologie	As energy systems undergo once-in-a-lifetime transformations, what solutions are needed to unlock high-priority applications for digital technologies at scale?
97	18 janvier 2023	Real Estate at a turning point		01-Fragmentation	Global real estate, with a value of more than \$320 trillion, remains a core allocation for most investment portfolios, despite disruptions to the industry such as rising interest rates, changing lifestyle demand drivers, and new and innovative ownership structures like fractionalization.
98	18 janvier 2023	Don't let greenwashing fears stall credible action		12-Environnement	Investors in natural ecosystems face hard choices to ensure credible outcomes at scale, given the rapid action needed to stabilize Earth systems and legitimate concerns of greenwashing.  How can data, regulation and Indigenous knowledge spur investors to channel resources towards quality conservation and restoration at scale?  This session is directly linked to the ongoing work of the World Economic Forum's It.org and Tropical Forest Alliance.
99	18 janvier 2023	Unlocking investment, not aid, for frontier markets		13-Justice sociale	There is a need and opportunity to complement traditional humanitarian response with long-term and market-driven solutions that support the resilience of vulnerable communities.  Which organizations are leading the way and what are the best practices to scale investments that benefit communities in frontier markets?  This session is directly linked to the ongoing Humanitarian and Resilience Investing Initiative of the World Economic Forum.
100	18 janvier 2023	In the face of fragility: central bank digital currencies		08-Economie	Over 100 nations are exploring central bank digital currency (CBDC) and each has a different motive for implementation, now exacerbated by geopolitical fragility and financial instability.  What can we learn from countries that have implemented CBDC solutions and can they provide resiliency in the face of global risks and the high-inflation, low-growth, high-debt economy?  This session is directly linked to the ongoing work of the World Economic Forum's Digital Currency Governance Consortium
101	18 janvier 2023	How to prevent lost learning		14-Travail	More than 65% of countries have cut education budgets in the wake of competing priorities from the health, economic and energy crises, undermining prospects for growth and dimming the chances of reaching the Sustainable Development Goal for education by 2030.  From new funding models to reimagining physical learning spaces, what bold and innovative steps can business and government take to turn the education crisis into opportunity?
102	18 janvier 2023	The economy of super ageing society		05-Société	Between 2015 and 2050, the proportion of the world's population aged over 60 will nearly double from 12% to 22% and, by 2050, 80% of older people will be living in low- and middle-income countries.  How can we prepare for the transformative effects of a super-ageing society?  This session is directly linked to the ongoing Longevity Economy Initiative of the World Economic Forum.
103	18 janvier 2023	Moving towards nutrition security		11-Ressources	Over time one major food crisis has almost been solved – most people around the world now have access to food for a low cost.  How will the next phase of the food security challenge, ensuring that people also get nutrition, be solved?  This session is directly linked to the ongoing New Frontiers of Nutrition Initiative of the World Economic Forum.
104	18 janvier 2023	Press conference: Edison alliance – from promise to Progress		03-Gouvernance	The EDISON Alliance – a global movement of public and private sector leaders committed to prioritizing digital inclusion – launched the 1 Billion Lives Challenge to improve 1 billion lives globally through affordable access to digital solutions across healthcare, finance, and education by 2025. During the press conference, the EDISON Alliance will share its first impact report highlighting the number and nature of lives improved across 90 countries.
105	18 janvier 2023	Future by Design	Impact climat	03-Gouvernance	From the space programme to climate-smart technology, the United Arab Emirates has a track record of design thinking in governance.  What lessons learned could be deployed globally in the age of exponential change?

106	18 janvier 2023	Open Forum: Mobilizing for climate	Impact climat	03-Gouvernance	To promote climate action, many multistakeholder commitments and partnerships have been created. However, keeping the global temperature rise to 1.5C above pre-industrial levels is still a struggle. What concrete steps are needed for coordinated global climate action?
107	18 janvier 2023	Press Conference: how to build a metaverse for all		09-Technologie	This press conference will announce the first, and long-awaited, outputs of the Defining and Building the Metaverse Initiative: highly anticipated briefing papers on Interoperability in the Metaverse from the governance track of the project, and Demystifying the Consumer Metaverse from the value creation track. These two briefing papers, the first in each workstream's series, will serve as the foremost publications involving this amount of research, this number of stakeholders from diverse industries (120+ partners are involved in this initiative), into these topics.
108	18 janvier 2023	Achieving responsible production and consumption		11-Ressources	The global consumer class is projected to grow to more than 5 billion people over the next 10 years, driving a 50% increase in consumer spending. To meet this demand responsibly, production and consumption models must be environmentally sustainable and promote societal well-being. What are the practical approaches needed to achieve a responsible future for production and consumption? This session is directly linked to the ongoing Consumers Beyond Waste and Scope 3 Decarbonization: The Consumer Opportunity Initiatives of the World Economic Forum.
109	18 janvier 2023	Squaring Europe's energy circle	Impact climat	11-Ressources	As the European Union races to diversify its hydrocarbon imports and electrify its economy, what impact will the ongoing energy crisis have on Europe's climate ambitions and on the EU's industrial competitiveness? This session was developed in collaboration with France 24.
110	18 janvier 2023	Cultural leaders as a catalyst of change with Immy Humes	Impact climat	04-Culture	Join Oscar-nominated documentary filmmaker, producer and author Immy Humes as she shares stories and group portraits of remarkable women from her book, The Only Woman. Through her work, Humes reveals and reframes how women and men have related socially in surprising and poignant ways and how the undeniable phenomenon of "the only woman" is still as relevant today as it was over 100 years ago.
111	18 janvier 2023	Putting health at the heart of climate action	Impact climat	15-Santé	Climate change has a direct impact on physical and mental health, with more than half of known infectious diseases worsened by rising temperatures and 20 million individuals displaced each year as a result of weather-related events. What steps are needed to place health at the heart of climate action and protect individuals globally?
112	18 janvier 2023	The pivot to resilience: a price worth paying		01-Fragmentation	There is widespread recognition that resilience needs to be a lodestar for leaders in government and business alike. This will require not just commitment but cash. Are leaders ready to absorb the costs of pivoting from efficiency to resilience, such as profits forgone and taxes raised? This session was developed in collaboration with Thomson Reuters.
113	18 janvier 2023	The role of finance in a recovery		13-Justice sociale	Many global economies are already in, or are projected to enter recession in the near future. How can the global financial system support corporates and individuals to preserve jobs, maintain livelihoods and drive further and much-needed innovation?
114	18 janvier 2023	Investing in AI with care		09-Technologie	As early backers of technology, investors wield great influence over which technologies are more likely to see the light of day. There is an opportunity for investors to work closely with their investee companies to ensure benefits are maximized and risks are mitigated, especially in technologies like AI. What metrics and tools can investors use to guide and shape investments in trusted and responsible technology systems? This session is directly linked to the ongoing Responsible Investment in AI Initiative of the World Economic Forum.
115	18 janvier 2023	A conversation with Satya Nadella, CEO of Microsoft		10-Industrie	
116	18 janvier 2023	Press conference: a conversation with the first lady of Ukraine		07-Défense	
117	18 janvier 2023	Leading the charge through earth's new normal		01-Fragmentation	The world is undergoing interacting crises in food, energy, health and nature that are threatening our way of life and accelerating us towards a global catastrophe. What visionary leadership is needed for systems thinking, transformative solutions and global collaboration to build a more inclusive, prosperous and sustainable future?
118	18 janvier 2023	Land matters		12-Environnement	Agriculture, deforestation and land use changes are the second largest greenhouse gas emitter after energy. Globally, 25% of land is already degraded, with increased risks from growing demand and extreme weather events. What are the strategies for integrating more sustainable approaches for land management to provide for food, feed, fibre and fuel? This session is directly linked to the Tropical Forest Alliance hosted by the World Economic Forum.
119	18 janvier 2023	Press conference: achieving health equity by tackling the trust gap		15-Santé	Too many people from marginalized communities and underrepresented groups distrust healthcare. The trust gap can impair the lives of millions of people, leading to significant inequalities and ultimately worsening health outcomes. A global coalition between public, private and social sectors is needed to build a bridge of trust between healthcare and people who can feel discriminated against. That's the thinking behind Sanofi's new global initiative A Million Conversations.
120	18 janvier 2023	Innovators for social fairness		05-Société	Inequities cost the global economy trillions of dollars each year, materially affecting government spending, business continuity and people's lives and livelihoods. What are the most promising opportunities to advance health equity and increase social fairness by focusing on scaling community innovations that work?
121	18 janvier 2023	A conversation with Alex Karp, CEO of Palantir		10-Industrie	

122	18 janvier 2023	Cultural leaders as a catalyst of change with Platon	Impact climat	04-Culture	<p>Join photographer Platon, in conversation with Filippo Grandi, the UN High Commissioner for Refugees, to discuss the power of film and photography to represent the many faces and voices of those forced to flee.</p> <p>The session will debut excerpts from a Portrait of Stranger, a multimedia collaboration between Platon and UNHCR. This collective portrait of human fragility and fortitude illustrates how the human spirit shares universal truths – the desire to be free, to be safe, to be respected, to belong.</p>
123	18 janvier 2023	Bringing circularity to life		10-Industrie	<p>While circularity is recognized as a much-needed alternative to current linear production models for industries, progress to date has been extremely limited.</p> <p>How can circularity adoption in operating and business models be accelerated?</p> <p>This session is directly linked to the ongoing Circular Operations and Value Chains through Traceability Initiative of the World Economic Forum.</p>
124	18 janvier 2023	A new reality: building the metaverse		10-Industrie	<p>While the metaverse is still in its infancy, investment in its development has accelerated with top global players investing an estimated \$180 billion in the past few years. The technology's development is dependent on research, innovation, investment and policy.</p> <p>How can a safe, accessible and economically viable metaverse be operationalized?</p> <p>This session was developed in collaboration with The Atlantic.</p> <p>This session is directly linked to the ongoing Defining and Building the Metaverse Initiative of the World Economic Forum.</p>
125	18 janvier 2023	Defending transparency		01-Fragmentation	<p>The world is at an unprecedented inflection point of multiple crises. Corruption exacerbates these crises, erodes public trust, and diverts funds from where they are most needed.</p> <p>How can business, government, and civil society join efforts to counter corruption?</p>
126	18 janvier 2023	Leadership for latin America		06-Géopolitique	<p>Diverse leadership visions are reshaping Latin America's domestic politics, its social and economic policies and global role.</p> <p>How can the region come together to deliver on a forward-looking common agenda?</p>
127	18 janvier 2023	Building momentum towards COP28	Impact climat	03-Gouvernance	<p>This briefing provides a roadmap of the key priorities and actions ahead of and during COP28 under the Presidency of the United Arab Emirates.</p> <p>Join the briefing to understand these global priorities and the region's collective approach to climate action.</p>
128	18 janvier 2023	Special address by Olaf Scholz, Federal Chancellor of Germany		06-Géopolitique	
129	18 janvier 2023	From the Factory Floor to Davos		10-Industrie	<p>Strategic discussions cannot be disconnected from the frontline workers who are fundamental to the success of industrial transformation.</p> <p>This interactive session brings frontline workers and Annual Meeting 2023 participants face-to-face to shape a new era of collaboration.</p>
130	18 janvier 2023	Health Systems: building through disruption		15-Santé	<p>The impact of the pandemic, compounded by geopolitical conflicts and socio-economic turbulence, is disrupting healthcare globally and hitting the vulnerable the hardest.</p> <p>What is needed to unlock equitable access for all while building crisis-resistant health systems?</p> <p>This session was developed in collaboration with South African Broadcasting Corp. (SABC).</p>
131	18 janvier 2023	Turning technologies into the markets of tomorrow		13-Justice sociale	<p>The promise of new technologies does not always translate into economic progress, while tried and tested technologies can be the key to unlocking growth and transformation.</p> <p>How should policy-makers and businesses balance the role of new and old technologies?</p> <p>This session is directly linked to the ongoing work of the World Economic Forum's Market Creators Alliance</p>
132	18 janvier 2023	Revolutionizing food security		09-Technologie	<p>From production to processing and packaging and to distribution and logistics, food systems are being shaped and reimaged.</p> <p>What breakthrough technology and innovation ideas could revolutionize consumption patterns in the future?</p> <p>This session is directly linked to the Food Innovation Hubs global initiative and the Food Action Alliance of the World Economic Forum.</p>
133	18 janvier 2023	A living wage for all		13-Justice sociale	<p>A globally implemented living wage could generate \$4.6 trillion in additional GDP each year through increased productivity and spending.</p> <p>Amid a worsening cost of living crisis, what would it take to radically reimagine a world with living wages for all?</p>
134	18 janvier 2023	Biotech @evolution		10-Industrie	<p>As the biotech revolution continues to unfold, there is a landscape of potential for these technologies in medicine, food and materials.</p> <p>What are the most investable technologies for industry deployment in the next decade?</p>
135	18 janvier 2023	Launch of clean power and electrification accelerators		10-Industrie	<p>In this press conference, we will make announcements on the actions needed in this decade to accelerate (1) clean power and delivery and (2) electrification. The ac</p>
136	18 janvier 2023	Keeping the Pace on Climate	Impact climat	11-Ressources	<p>Following the negotiations and commitments at COP27 and amid energy, food and water crises, robust action remains critical to keep the world on track for COP28 goals and milestones to combat climate change.</p> <p>Between Sharm el-Sheikh and Dubai, what are the imperatives to ensure global cooperation on climate action in the face of multiple pressures and crises?</p> <p>This session was developed in collaboration with CNN.</p>
137	18 janvier 2023	Special address by Volodymyr Zelensky, President of Ukraine		07-Défense	

138	18 janvier 2023	Restoring security and peace		07-Défense	The war in Ukraine has exacerbated a fragile geopolitical and security landscape. Bold leadership is required not only to restore peace and security in Europe but also for the world. In a time of grave challenges, how can leaders collaborate and cooperate to defend our collective security?
139	18 janvier 2023	AI for climate adaptation	Impact climat	09-Technologie	The deepening climate crisis calls for urgent action on climate adaption and climate mitigation. AI can be leveraged for adaptation use cases such as wildfire prediction, modelling climate threats for businesses, or migration due to extreme weather. What are the most promising AI applications to drive action on climate adaptation? This session was developed in collaboration with The Innovator. This session is directly linked to the ongoing AI for Climate Adaptation Initiative of the World Economic Forum.
140	18 janvier 2023	A conversation with Ferdinand Marcos Jr, Président of the Philippines		06-Géopolitique	
141	18 janvier 2023	Profit and Purpose: accelerating equity of opportunity		05-Société	Against a backdrop of persistent inequality, the new generation includes a growing number of people demanding more of companies, looking for them to play an active and constructive role in creating societies that are more just and inclusive. How can business balance its immediate duty to shareholders with long-term contributions to equity of opportunity?
142	18 janvier 2023	The middle east: meeting point or battleground		07-Défense	Against a backdrop of intensifying geopolitical polarization, countries in the Middle East and North Africa have attempted to insulate themselves by pursuing nascent dialogues, fostering economic cooperation and striving to avoid choosing sides between the great powers. What concrete steps can the region take to preserve its stability, and does a burgeoning innovation sector provide new avenues for cooperation? This session was developed in collaboration with The National.
143	18 janvier 2023	The case for Trade		02-Vision	A cutback in trade and investment threatens economic, social and environmental costs and lowers consumer benefits. Yet states fear threats to security and values from global commerce. What new narrative is needed to revitalize the global trading system? This session is directly linked to the ongoing work of the Trade and Investment Platform of the World Economic Forum.
144	18 janvier 2023	Tackling harm in the digital era		04-Culture	The challenges related to harmful content and conduct online are amplified through our increased time online in an increasingly fragmented world. Addressing users' safety on social media, cloud, gaming and other online environments is crucial to tackling online abuse, violence and other harms. How can evolving regulation and industry technological innovations build safer digital spaces and tackle online harms? This session is directly linked to the ongoing Global Coalition for Digital Safety Initiative of the World Economic Forum.
145	18 janvier 2023	Skills first: unlocking employment for all		14-Travail	Evaluating employees and new hires based on their skillsets instead of their work history can help level the playing field for workers and broaden the talent pipeline for employers. How can a skills-first approach enable access to high-growth, high-wage jobs of tomorrow? This session is directly linked to the ongoing initiative of the World Economic Forum's Future Skills Alliance.
146	18 janvier 2023	Open forum: energy transition rush		11-Ressources	From industrial production to household heating, the global energy crisis is causing ripple effects that have spurred a rush to address energy transition. What is needed to ensure access to affordable, sustainable and clean energy solutions for all?
147	18 janvier 2023	Press conference: closing the disability inclusion gap		05-Société	Much like a lack of accessibility, representation, equal access to opportunity, and other ways disability exclusion limits socioeconomic participation, the omission of
148	18 janvier 2023	Time for boards to sharpen up		03-Gouvernance	The power of shareholders to shape the corporate narrative is not to be underestimated. What is the responsibility of large shareholders to challenge misaligned corporate behaviour and excess in executive compensation?
149	19 janvier 2023	The age of net-zero energy technologies	Impact climat	11-Ressources	The global energy mix remains highly carbonated despite efforts to date and the existence of key energy solutions that can make a difference in addressing the energy and climate crises. How can we best leverage established and emerging energy technologies to achieve net-zero emissions by 2050? This session was developed in collaboration with Wired. This session is directly linked to the Advanced Energy Solutions Community and the ongoing Transforming Industrial Ecosystems Initiative of the World Economic Forum.
150	19 janvier 2023	The earth data revolution	Impact climat	02-Vision	The world produces more than 100 terabytes of earth observation data every day. The volume and variety of datasets as well as the speed and veracity in which data is received will transform the way we analyse information, set policies and make decisions. What are the promising possibilities and partnerships to harness data for climate insights and action?

151	19 janvier 2023	The future industrial policy		10-Industrie	<p>As industrial policy returns to the top of government agendas, many of the challenges impacting manufacturing remain global in nature.</p> <p>How can governments and companies work together to shape the next generation of industrial strategies through rebalancing national priorities and global cooperation?</p> <p>This session is directly linked to the ongoing Future of Industrial Strategies Initiative of the World Economic Forum.</p>
152	19 janvier 2023	Youth agency over earth's future	Impact climat	02-Vision	<p>There is growing eco-anxiety, especially among children and young adults, as dangerous Earth system tipping points are breached.</p> <p>How are young people around world taking up the mantle of climate leadership, from advocacy and education to entrepreneurship and innovation?</p> <p>This session is directly linked to the ongoing work of the <a href="https://www.1t.org">1t.org</a> Youth Hub for #GenerationRestoration.</p>
153	19 janvier 2023	100 days to outrace the next pandemic		15-Santé	<p>Creating safe and effective vaccines in 100 days is estimated to give economies and societies a chance of containing the next outbreak before it spreads. What will it take to get there?</p> <p>Join this session to learn how the Coalition for Epidemic Preparedness Innovations (CEPI) is accelerating the development of vaccines and enabling equitable access during outbreaks.</p>
154	19 janvier 2023	Enabling an equitable transition	Impact climat	13-Justice sociale	<p>Climate action holds the risk of stranding people and assets – as well as the promise of new jobs and economic opportunities.</p> <p>How can we embed equity and justice in the transition to greener economies?</p>
155	19 janvier 2023	Reigniting growth in Africa		06-Géopolitique	<p>African economies are slowly recovering from the socio-economic impacts of the pandemic but are constrained by tight fiscal space, unequal access to external finance and increasing debt vulnerabilities.</p> <p>What policy actions are needed to enhance economic diversification and unleash the private sector's potential in the region?</p> <p>This session was developed in collaboration with CNBC Africa.</p>
156	19 janvier 2023	Deployment in the industrial metaverse		02-Vision	<p>The next era of the internet is fast approaching in the form of the metaverse, an immersive, interoperable and synchronous digital world. In the industrial metaverse, unique opportunities will arise from the convergence of artificial intelligence, digital twins, data and robotic technologies.</p> <p>How can industrial leaders maximize the benefits of the metaverse, while avoiding its disruptive potential?</p> <p>This session is directly linked to the ongoing Defining and Building the Metaverse Initiative of the World Economic Forum</p>
157	19 janvier 2023	How ai fights wildfires		09-Technologie	<p>Wildfire severity, spread and frequency have all increased posing a growing threat to forest ecosystems and high-risk rural areas. There is an urgent need for technological innovation on three fronts: prediction, emergency response and forest management.</p> <p>How can we leverage artificial intelligence to predict and fight wildfires?</p> <p>This session is directly linked to the ongoing FireAid, AI to predict and fight wildfires Initiative of the World Economic Forum.</p>
158	19 janvier 2023	Where the lands meets the sea		12-Environnement	<p>Despite occupying only about 5% of land area, coastal wetlands store approximately 50% of all carbon buried in ocean sediments. Blue carbon ecosystems can store between 10 and 100 times more carbon than forests, while also providing essential support in biodiversity, coastal resilience and livelihoods.</p> <p>Can blue carbon projects reverse the loss of coastal habitats and provide the impetus to conserve and restore them?</p> <p>This session is directly linked to the Ocean Action Agenda at the World Economic Forum.</p>
159	19 janvier 2023	Open forum: pack-up and go – climate migration	Impact climat	13-Justice sociale	<p>Over 200 million people face forced migration within their countries by 2050 due to sea-level rise, extreme weather events, drought and water scarcity. Climate migration can destabilize societies and economies, making them vulnerable to other long-term threats.</p> <p>How can we address climate migration and reduce the risks for those displaced by the nature and climate crisis?</p>
160	19 janvier 2023	Press conference: towards a world with zero health gaps		15-Santé	<p>Global health inequities are sadly a reality: there is a 14-year difference in life expectancy at birth between high- and low-income countries, while even within countries marginalized and vulnerable populations on average experience far worse health outcomes.</p> <p>To address global health inequities, the World Economic Forum's Global Health Equity Network and its partners are launching the Zero Health Gaps Pledge: the world's first global, multi-sector health equity pledge. The Zero Health Gaps Pledge outlines the need for, and commitment to, a multi-disciplinary approach and concerted action across sectors and organizations globally to advance health equity.</p>
161	19 janvier 2023	The 11 trillion opportunity in the care economy		13-Justice sociale	<p>Shifting demographics will drive growing demand for eldercare, childcare and wider social infrastructure.</p> <p>What investments, incentives and partnerships are needed to build a well-functioning care economy?</p>
162	19 janvier 2023	A crucial year to focus on adaptation	Impact climat	03-Gouvernance	<p>Adaptation costs in developing countries could reach \$300 billion a year by 2030 to provide resilient infrastructure, nature-based solutions and improve agriculture and water systems for communities most exposed to the consequences of climate change.</p> <p>How can the climate COPs in Africa and the Middle East unlock scaled-up multistakeholder partnerships for adaptation, with a particular focus on emerging and frontier markets?</p> <p>This session was developed in collaboration with CNBC-TV18.</p> <p>This session is directly linked to the Business Agenda on Climate Adaptation of the World Economic Forum.</p>

163	19 janvier 2023	Indigenous people and trade		13-Justice sociale	<p>Indigenous peoples have engaged in trade for millennia yet face challenges today. As demands for sustainable and inclusive globalization grow, what can we learn from Indigenous approaches to commerce and how can we ensure that the benefits of trade are more broadly shared for generations to come?</p> <p>This session was developed in collaboration with Devex.</p>
164	19 janvier 2023	The four-day week		14-Travail	<p>Recent large-scale experiments suggest that workers' hours can be cut without a corresponding drop in output.</p> <p>Can the four-day work week address some of the most urgent problems in the 21st-century world of work?</p>
165	19 janvier 2023	From mass data to mass insights		09-Technologie	<p>New technologies to generate insights without exposing the underlying data is ushering in a new era for value creation in the digital economy.</p> <p>From mapping the genome to reducing the carbon footprint, how can business leaders unlock value from data collaboration at scale?</p> <p>This session is directly linked to the ongoing Digital Transformation of Industries Initiative of the World Economic Forum.</p>
166	19 janvier 2023	Financial inclusion beyond access		13-Justice sociale	<p>Despite progress over the past decade, 24% of adults remain unbanked and about only half of all adults in developing economies can access funds within 30 days to cover an unexpected expense.</p> <p>What more can technology advancements and cross-sector coordination achieve to increase inclusion for underserved individuals and businesses?</p>
167	19 janvier 2023	Space exploration is back		03-Gouvernance	<p>Humanity is entering a new era of space exploration with human beings set to return to the Moon soon and robotic missions to other planets.</p> <p>What exciting new discoveries in the solar system might we uncover this decade that could change how we view our planet and what kind of public-private partnerships will be needed to get us there?</p>
168	19 janvier 2023	In the name of national security		07-Défense	<p>How can we ensure that the ever expanding domain of dual-use technologies, services and products does not stifle human progress?</p> <p>This session was developed in collaboration with Wired Magazine.</p>
169	19 janvier 2023	Press conference: trailblazing entrepreneurs tackling the world's biggest problems		10-Industrie	Join this press conference to hear about how the private sector, governments and other organisations are joining UpLink's mission to source and scale the innovative
170	19 janvier 2023	Special address by Yoon Suk Yeol, President of the Republic of Korea		06-Géopolitique	
171	19 janvier 2023	Investigating the Universe		02-Vision	<p>Many mysteries related to the structure of the universe and its evolution remain.</p> <p>Join Fabiola Gianotti, Director-General of CERN (the European Organization for Nuclear Research), as she unravels how investigating the universe at the most fundamental level drives technological innovation and fosters collaboration across borders.</p>
172	19 janvier 2023	Insuring uncertainty	Impact climat	01-Fragmentation	<p>Climate change, technological disruption, pandemics and unprecedented demographic change are some of the megatrends shaping the future of the insurance industry.</p> <p>In this era of unpredictability and volatile data, how can insurers and other key stakeholders across financial services help attenuate negative consequences for the real economy and build more sustainable economic and societal resilience in the face of increased risk?</p>
173	19 janvier 2023	Climate finance: reaching velocity	Impact climat	09-Technologie	<p>While over \$130 trillion of private capital is committed to net zero, over 60% of the decarbonization technologies needed to transition the industrial and mobility sectors are not available at commercial scale.</p> <p>How can the growing number of innovative financing mechanisms improve the bankability of net-zero projects and unlock the investments needed to decarbonize economies?</p> <p>This session is directly linked to the ongoing Financing the Transition to a Net Zero Future Initiative of the World Economic Forum.</p>
174	19 janvier 2023	Learning from semiconductor supply shocks		02-Vision	<p>Supply chain and production challenges for critical semiconductor technology components sparked over \$200 billion of capacity investments from countries and companies, particularly in US and Europe.</p> <p>As demand declines and recessionary pressures disrupt the global economy, how important is it to re-globalize the semiconductor ecosystem?</p>
175	19 janvier 2023	Realizing Africa's century		02-Vision	<p>Africa is the youngest and fastest-growing continent. Moreover, it holds 65% of the world's remaining uncultivated arable land, has vast renewable energy potential and an abundance of the minerals critical to the energy transition.</p> <p>How can leaders across Africa best leverage this opportunity?</p> <p>This session was developed in collaboration with South African Broadcasting Corp. (SABC).</p>
176	19 janvier 2023	The geography of diversity		05-Société	<p>While corporate strategies on diversity, equity and inclusion often have a Western-specific focus, inclusion is a global concern which arises in different ways in each regional context.</p> <p>How can businesses with a global footprint develop policies that are applicable in different geographies and what are the common factors in regional approaches?</p>
177	19 janvier 2023	Finding Europe's new growth		08-Economie	<p>Europe is facing a slow-growth, high-debt and high-inflation economy, even as labour markets remain persistently tight.</p> <p>With limited fiscal and monetary tools available, where can Europe's leaders find the space to deliver growth?</p>

178	19 janvier 2023	Business action in Nature	Impact climat	04-Culture	<p>Nature is increasingly integrated into business decision making, with more than half of the world's GDP dependent on nature and its services. There is no pathway to 1.5 degrees Celsius without addressing nature loss and land and ocean degradation.</p> <p>From assessing nature-related risks and disclosures, to investing into nature to create enduring value and sustainable growth, how are businesses pursuing nature-positive transitions as part of their competitive strategy?</p> <p>This session is directly linked to the Nature Action Agenda and Champions for Nature community of the World Economic Forum.</p>
179	19 janvier 2023	Not losing sight of emerging markets		06-Géopolitique	<p>As advanced economy central banks aggressively combat inflation, spillover effects have rocked emerging market assets, leaving many investors with steep losses.</p> <p>What is the short- and medium-term investment outlook for emerging economies, and how are investors weighing the opportunities and risks in emerging markets?</p>
180	19 janvier 2023	Crisis of democratic capitalism		01-Fragmentation	<p>Democratic capitalism – the marriage of the market economy with democratic politics — has generated an unprecedented combination of prosperity with political and economic freedom. However, its fragility has also become more evident with the rise of authoritarian populism.</p> <p>What is needed to ensure that democratic capitalism continues to thrive under the stresses of internal frictions, environmental challenges and powerful rival systems?</p>
181	19 janvier 2023	Open forum: the evolution of urban life		05-Société	<p>More than half of the world's population lives in urban areas and this is expected to increase to almost 70% by 2050.</p> <p>How can we ensure the cities of the future are environmentally sustainable and socially resilient?</p>
182	19 janvier 2023	Beyond the rainbow: advancing LBGQTQI+ rights		05-Société	<p>Recent changes in law and the expansion of LGBTQI rights in a number of countries mark positive progress.</p> <p>What lessons from these success stories can be applied in other contexts?</p>
183	19 janvier 2023	Reshuffling value chains		02-Vision	<p>With the current competition of ideologies between reshoring, offshoring and distributed shoring, how can businesses and political leaders successfully navigate the reshuffling of global value chains to enable resiliency, sustainability and inclusive growth?</p> <p>This session is directly linked to the ongoing Navigating Global Value Chain Disruption Initiative of the World Economic Forum.</p>
184	19 janvier 2023	Cities rebuild	Impact climat	02-Vision	<p>Cities around the world are in the process of rebuilding as a result of geopolitical conflict, climate change, natural disasters or other factors - including the impacts of the pandemic on city life.</p> <p>What strategies can the public and private sectors advance to build resilience, adaptation, social value and inclusion into reconstruction efforts?</p> <p>This session is directly linked to the ongoing Building Tomorrow's Urban Infrastructure Initiative of the World Economic Forum.</p>
185	19 janvier 2023	Tech power and cooperation		03-Gouvernance	<p>Given the game-changing characteristics of technologies such as quantum computing, AI and biotechnology for power relations among nations, and with and among technological actors, what cooperative arrangements can safeguard common good?</p> <p>This session was developed in collaboration with Axios.</p>
186	19 janvier 2023	Investing in the worst of times		08-Economie	<p>The scale of uncertainty in today's markets is severely disrupting an already challenging investment landscape. How are the world's largest investors adjusting to the</p>
187	19 janvier 2023	Ocean 20: building a sustainable blue economy		08-Economie	<p>The ocean connects all of us. It provides transport for 90% of global trade, is the backbone of the internet and creates jobs for more than 3 billion people. The launch of the Ocean 20 agenda under the G20 Presidency of Indonesia provides a platform for collective action on generating a sustainable ocean economy.</p> <p>This discussion provides the science-business-policy lens on the pressures confronting the ocean and identifies the areas for responsible stewardship.</p> <p>This session supports the ongoing work of the Ocean Action Agenda at the World Economic Forum and is directly linked to the Ocean 20 initiative that the World Economic Forum is supporting.</p>
188	19 janvier 2023	Reversing the tide of global inequality		05-Société	<p>Amid food and energy crises, geopolitical turmoil and trade disruption, global economic convergence appears to have stalled.</p> <p>What can leaders do differently to realize growth and prosperity both in advanced and emerging economies?</p>
189	19 janvier 2023	Arab economies converging?		08-Economie	<p>The Arab region has emerged from the COVID-19 pandemic with new economic partnerships and a renewed momentum towards economic cooperation.</p> <p>How do leaders in the region realize the long-awaited promise of deeper economic ties?</p> <p>This session was developed in collaboration with Asharq News.</p>
190	19 janvier 2023	Real data: traceability for greenhouse gas emissions	Impact climat	04-Culture	<p>Production of greenhouse gas emissions is significantly under-reported globally, with little data aggregated at facility-level precision, until now.</p> <p>In this session, AI Gore discusses the ongoing data paradigm shift for accountability and transparency, highlighting Climate TRACE's new dataset of 70,000+ individual sites.</p> <p>How can GHG emissions data drive decision-making?</p>
191	19 janvier 2023	Press conference: the Hispanic promise 2.0		06-Géopolitique	
192	19 janvier 2023	Repowering the world	Impact climat	03-Gouvernance	<p>In the context of a global energy crisis where leaders have to grapple with a climate emergency, geopolitical conflict and pressures on prices, the energy landscape is facing a fundamental transformation in developed and emerging economies alike.</p> <p>How should world leaders and private decision-makers balance short-term needs with longer-term supply, sustainability and affordability requirements in a fraught geopolitical environment?</p>

193	19 janvier 2023	Is the world in a debt spiral?		01-Fragmentation	With rising interest rates, the strengthening of the US dollar and weaker global growth, how acute are the risks of a systemic sovereign debt crisis in emerging and advanced economies? This session was developed in collaboration with Thomson Reuters.
194	19 janvier 2023	Keeping faith		01-Fragmentation	Faith leaders have long been at the forefront of promoting freedom and collaboration through their wide and deep global networks. In the face of increasing social vulnerabilities, where, and how, can faith, business and other leaders intersect to hold space for shared freedoms?
195	19 janvier 2023	Renaissance of south asia	Impact climat	06-Géopolitique	The pandemic showed the resolve of the region's countries to collaborate with each other to tackle common challenges. Can the economies move past historic differences to find areas of strategic cooperation such as climate action and poverty reduction?
196	19 janvier 2023	Finding the right balance for crypto		08-Economie	The boom and bust in the crypto markets, compounded by the dramatic volatility in 2022, has left many with questions about the future of blockchain innovation. What would it take to craft sufficiently robust regulation to realise the benefits of digital currencies while ensuring positive macroeconomic and societal outcomes? This session is directly linked to the ongoing work of the World Economic Forum's Digital Currency Governance Consortium.
197	19 janvier 2023	A conversation with Kyriakos Mitsotakis, prime minister of Greece		06-Géopolitique	
198	19 janvier 2023	Unlocking employment for refugees		14-Travail	With an unprecedented number of refugees forced to flee their homes, labour markets need to respond swiftly. How can business and government work together to create employment opportunities for refugees? This session is directly linked to the ongoing Refugee Employment and Employability Initiative of the World Economic Forum.
199	19 janvier 2023	Press conference: new frontiers for diversity, equity and inclusion		05-Société	
200	19 janvier 2023	The factory of the future		10-Industrie	This interactive session uses foundational technologies to bring Annual Meeting 2023 participants inside one of the most advanced factories in the world.
201	19 janvier 2023	Eurasia's middle corridor: from pathway to highway		06-Géopolitique	As the global ramifications of the war in Ukraine become clearer, countries in the South Caucasus and Central Asia are under pressure to adapt to the implications of the conflict. From scaling up transport to investment in energy infrastructure, how can Europe and Eurasia build effective partnerships for this new reality?
202	19 janvier 2023	Women's leadership: towards parity in power		05-Société	Driving growth, equity and transformative solutions to today's challenges needs more gender-diverse leadership across the economy, politics and civil society. However, progress on parity is stalling globally. How can we create better pathways to advance more women into the highest levels of leadership?
203	19 janvier 2023	The different roads to energy transition		11-Ressources	Energy security, affordability and sustainability are cornerstones of a successful energy transition. In a time of stifled supply, slow emission reduction and discrepancies in energy access between advanced and developing economies, how can a globally inclusive energy transition be accelerated? This session is directly linked to the ongoing Mobilizing Investments for Clean energy in Emerging Economies Initiative of the World Economic Forum.
204	19 janvier 2023	Advancing racial and ethnic equity		05-Société	Despite progress in mainstreaming diversity and inclusion in the corporate environment, racial and ethnic equity efforts remain fragmented. How can organizations foster growth and increase stakeholder trust through addressing racial and ethnic equity within their operations worldwide? This session is directly linked to the ongoing Partnering for Racial Justice Initiative of the World Economic Forum.
205	19 janvier 2023	Bricks or clicks: what kind of investment do economies need?		08-Economie	Many countries now invest more in intangible assets, such as IP, than in tangible assets like buildings and machinery, with consequences for innovation, productivity, market concentration and more. What does the rise of the intangible economy mean and how should policy-makers respond?
206	19 janvier 2023	Widening Europe's horizons		07-Défense	How can the new European Political Community help the European Union and its neighbours strengthen the continent's security landscape amid wider geopolitical shifts? This session was developed in collaboration with Politico.
207	19 janvier 2023	Is global tax reform stalling		13-Justice sociale	With growing social polarization and a lack of trust in the fairness of economic systems, progress on more efficient global taxation mechanisms, such as the OECD's global corporate tax deal, is becoming essential. How can we address the tax challenges raised by digitalization and ensure a fairer redistribution of tax revenues across countries?
208	19 janvier 2023	Closer to the final frontier?		02-Vision	From space mining to satellite connectivity, from new space stations to advanced Earth observation, the space sector is pushing the limits of technology ever more. What new possibilities will these advances bring to society and what will the sector look like by the end of this decade?

209	19 janvier 2023	Water: the bloodstream of our earth system	Impact climat	11-Ressources	<p>Whether too much, too little or too polluted, climate change and human activity are impacting our water supply. A more disrupted and less predictable water cycle is aggravating climate change and its impact on humans as well as our food, energy and industrial systems.</p> <p>What are the enabling governance, finance, infrastructure and innovations required to safeguard and restore our freshwater systems?</p> <p>This session was developed in collaboration with The National.</p> <p>This session is directly linked to the ongoing Global Water Initiative of the World Economic Forum.</p>
210	19 janvier 2023	Ready for brain transparency		01-Fragmentation	<p>The promise of neurotechnology to improve lives and to gain insight into the human brain is growing.</p> <p>How can we uphold data privacy and personal freedom as we make strides towards a world of brain transparency?</p>
211	19 janvier 2023	For the sake of peace: jumpstarting the Palestinian economy		07-Défense	<p>Some 30 years since the first Oslo Accords, the Palestinian economy remains stagnant and intrinsically vulnerable to regional political uncertainty and to a volatile global economy.</p> <p>With a poverty rate forecasted to continue at 26.1% for 2023 and rising unemployment, can business leaders rejuvenate the Palestinian economy despite the deadlock on the peace process?</p>
212	19 janvier 2023	People on the move: seeing the opportunities	Impact climat	14-Travail	<p>War and climate change are driving more and more people to seek opportunities across borders. While the narrative on migration is often shaped by ill-informed perceptions, the net-positive economic impact of migration cannot be underestimated.</p> <p>How can we maximize the economic potential of migration through smart policies?</p>
213	19 janvier 2023	Press Conference: launch of the Coalition of Trade Ministers on Climate	Impact climat	04-Culture	<p>Join the press conference at the launch of a new Coalition of Trade Ministers on Climate, which aims to put climate action at the heart of trade and trade policies. The four co-leaders – trade ministers from Ecuador, the European Union, Kenya, and New Zealand – will hold the Coalition's first inter-governmental meeting in Davos, along with ministers from many other countries, followed by a roundtable of stakeholders from international organisations, academia, business, and NGOs.</p>
214	19 janvier 2023	30*30 Ambition: Next steps after Montreal		02-Vision	<p>With the adoption of a new Global Biodiversity Framework in Montreal last month, 196 countries committed to protecting at least 30% of Earth's lands, inland waters, coastal areas and ocean by 2030 to ensure that natural capital is sustained for inter-generational prosperity. It is estimated that \$140 billion in annual financing will be required.</p> <p>What are the economic approaches and innovative financing arrangements needed to deliver on this bold ambition?</p> <p>This session supports the ongoing work of the Ocean Action Agenda and the <a href="#">1t.org</a> project of the World Economic Forum.</p>
215	19 janvier 2023	Bold New Cities Take the Stage		02-Vision	<p>A growing number of new developments across the globe are staking out a vision for the future that will transform city life, from net-carbon-negative cities to linear cities, "10-minute" cities, circular cities and cities powered by AI.</p> <p>How will these cities of tomorrow shape the cities of today?</p> <p>This session is directly linked to the ongoing Future of Real Estate Initiative of the World Economic Forum.</p>
216	19 janvier 2023	Is Rapid Growth still Possible?		08-Economie	<p>An unprecedented period of rising global living standards has given way in the 21st century to an era of stubbornly weak growth.</p> <p>What were the main contributors to the transformative growth of the 20th century and are they still relevant to the policy challenges of today?</p>
217	19 janvier 2023	Between Liquidity and Fragility: Reforming in Mena		06-Géopolitique	<p>While some countries in the Middle East and North Africa are expected to be fast-growing, others are grappling with rising food and energy prices, an appreciating dollar and dwindling fiscal space.</p> <p>How can the region maintain its momentum for structural reforms to advance a more inclusive and sustainable economic future?</p> <p>This session was developed in collaboration with AI Arabiya.</p>
218	19 janvier 2023	Better Health with Data		15-Santé	<p>With COVID-19 bringing to light pre-existing vulnerabilities in health systems and the importance of having quality data available for decision-making, what is the right balance between incentives and regulations to achieve sustainable access to data for better healthcare?</p> <p>This session is directly linked to the ongoing Global Coalition for Value in Healthcare and Edison Alliance Initiatives of the World Economic Forum.</p>
219	19 janvier 2023	Decarbonizing Supply Chain Leaving No One Behind		10-Industrie	<p>In a context of increasing efforts on supply chain decarbonization, emerging economies are at risk of being left behind in the deployment of technologies due to a lack of green infrastructure.</p> <p>How can emerging economies harness frontier technologies to support supply chain decarbonization and ensure sustainable movement of goods?</p> <p>This session is directly linked to the ongoing Road Freight Zero Initiative, the First Movers Coalition and the Getting to Zero Coalition of the World Economic Forum.</p>
220	19 janvier 2023	The Amazon at a Crossroads	Impact climat	12-Environnement	<p>Home to more than 30 million people, the Amazon is the Earth's largest rainforest and the world's richest biological reservoir. The absence of immediate action on ecosystem degradation will affect the lives of its inhabitants and the stability of global climate systems.</p> <p>How to strengthen collaboration and enable the bio-economy of the Amazon to deliver sustainable benefits for people and planet?</p>
221	19 janvier 2023	Introducing Ukraine's Peace Formula		07-Défense	<p>Ukraine has surprised the world in its defence of its sovereignty.</p> <p>Join this session to hear the Head of the Presidential Administration of Ukraine, Andrey Yermak, on a proposal for peace for his country.</p>
222	19 janvier 2023	Press Conference: President of Colombia		06-Géopolitique	

223	19 janvier 2023	Noa's Ark – Music as a Catalyst for Change	Impact climat	04-Culture	<p>With a career spanning over 30 years, Noa (Achinoam Nini) and Gil Dor have released over 15 albums, graced many of the world's most prestigious stages and performed for three popes. They dedicate their time and creative efforts towards raising awareness of the climate crisis and the plight of the Red Sea corals in particular.</p> <p>Join us for an exclusive musical performance with Noa and Gil Dor, followed by a conversation on how art and science can be interwoven with diplomacy and decisions for the collective good.</p>
224	19 janvier 2023	Press Conference: Trade and Investment	Impact climat	08-Economie	<p>Important achievements in the global trade and investment space are expected this Davos, including concluding negotiations on a new WTO Agreement on Investment Facilitation for Development, and launching a coalition of Trade Ministers for Climate. This press conference will be a chance to share and discuss these major milestones.</p>
225	20 janvier 2023	What next for monetary policy		08-Economie	<p>A dramatic period of surging inflation led to the sharpest tightening of monetary policy in decades. Is a radical rethink by central banks required, or do current targets hold?</p>
226	20 janvier 2023	Mapping Russia's trajectories		07-Défense	<p>Russia's economy is predicted to contract by up to 6% in 2022 – even in a context of record energy prices.</p> <p>What are the key scenarios for Russia in 2023 in its economy, domestic politics and military posture?</p>
227	20 janvier 2023	AI and White-Collar Jobs		14-Travail	<p>Recent breakthroughs in machine learning mean that increasingly complex cognitive tasks and creative production can be automated.</p> <p>Are the implications of these developments being overstated, or are we approaching an inflection point and a new disruptive era for knowledge workers?</p>
228	20 janvier 2023	Living with risk		01-Fragmentation	<p>The world has been roiled by global crises and there is little prospect of a let-up, with 80% of experts expecting persistent volatility and further shocks over the next two years.</p> <p>Against this backdrop, how can leaders prepare for the future while ensuring that the impacts of recent crises do not impose a burden on societies and economies?</p>
229	20 janvier 2023	Doubling down on Science		09-Technologie	<p>From a breakthrough in nuclear energy fusion to the discovery of exotic particles using the particle accelerator, finding solutions to the world's biggest challenges requires collaboration across borders, cultures and disciplines.</p> <p>What approaches hold the greatest promise for effective science collaboration?</p>
230	20 janvier 2023	Transforming Medicine, Redefining Life		15-Santé	<p>From clinical advances in neuroscience to proven solutions for HIV prevention and treatment, what are the radical new approaches needed to transform medicine and improve human health?</p>
231	20 janvier 2023	A New Helsinki		08-Economie	<p>With current geopolitics in flux, how can key powers stem the slide to volatility and strike a new bargain for security dialogue and coordination?</p>
232	20 janvier 2023	Start-Ups in Austerity		08-Economie	<p>The geopolitical tensions, inflation and supply disruptions impacting start-ups worldwide are resulting in a lack of free-flowing capital, while market sentiment is shifting from a growth-at-all-costs mentality to a profitability and sustainable business model.</p> <p>What's the new formula for calculating the valuation of a start-up and how can the overall ecosystem ensure that start-ups embody a stakeholder mindset?</p>
233	20 janvier 2023	Youth Call to Action		02-Vision	<p>As the Annual Meeting 2023 comes to a close, what is the call to action by youth for individuals, organizations and governments to accelerate solutions for the world's most pressing global challenges?</p> <p>Listen to the takeaways of four rising stars poised to shape the future and discover their asks to world leaders.</p>
234	20 janvier 2023	How to Turbocharge Development Finance		03-Gouvernance	<p>The key to scaling up financing for growth-related investments in developing countries lies in reorienting and expanding the role played by international financial institutions to plug potential funding gaps.</p> <p>How can these institutions help scale up financing for the broader economic, environmental and social agenda?</p>
235	20 janvier 2023	Global Economic Outlook: Is this the End of an Era		08-Economie	<p>The engines of global growth are slowing and the number of households and businesses facing economic distress is rising.</p> <p>What does the future of growth look like and what policies are needed to stabilize the global economy?</p>
236	20 janvier 2023	Open Forum: In Case of Fire, Use Stairs	Impact climat	05-Société	<p>More than 1 billion people live with a disability and are among those most adversely affected by the climate crisis. Their needs are often not included in strategies for infrastructure design and emergency response.</p> <p>How can the climate emergency be turned into an opportunity for inclusion?</p>
237	20 janvier 2023	Closing remarks: the road ahead		02-Vision
