Subject: Your action against the ongoing genocide in Palestine

Dear Member of Parliament,

A mass extermination has been taking place before our eyes in the Gaza Strip for almost two years. Israel, at the behest of Benjamin Netanyahu and a few fanatical far-right ministers, is preparing to commit further carnage by taking control of the entire Gaza Strip and emptying Gaza City of its entire civilian population. This decision confirms the Israeli government's genocidal intent: after massacring tens of thousands of Palestinians, using famine as a weapon of war, and transforming humanitarian aid into an enterprise of terror, Israel is turning the Gaza Strip into an open-air concentration camp.

Europe, which experienced mass destruction and extermination camps in the 20th century, bears a particular historical responsibility. As guarantor of the values of peace, law, and respect for peoples, it carried within it, at the time of its political creation, an ethical imperative that was meant to have universal scope: "Never again." Today, the worst is happening again at Europe's doorstep. What is it doing? Nothing, or very little!

Through its shameful silence or mere protests, through its inaction or support for Israel, the European Union—and each of its member countries—is becoming more complicit every day in crimes against humanity and genocide. This responsibility lies with governments, but also with many elected officials in various national parliaments and the European Parliament itself.

Therefore, as a citizen of Europe, I ask you to act now to put a definitive end to the Netanyahu government's genocidal enterprise, to end Israel's persecution of the Palestinian people—whether in the Gaza Strip or the West Bank—and to impose a ceasefire. This must lead to the withdrawal of the Israeli army from the Gaza Strip and the release of the Israeli hostages. We know that only credible and strong measures will force the Netanyahu government to back down. Therefore, I ask you to support the following actions and work towards their implementation:

1. Embargo on all arms sales to Israel;

2. Suspension of all scientific, military, and commercial partnerships with Israel;
3. Ban on the import of products from Israeli settlements;
4. Creation of an international armed force to open humanitarian corridors and protect civilian populations;
5. Sending sufficient humanitarian aid to end the famine organized by the Israeli government.

Your responsibility and your mandate are engaged. It is your duty to do everything to stop Israel now! Tomorrow will be too late.

Sincerely,

Signature
