

# GLOBAL SOLIDARITY NOW!

**MOLEX INC.** is an Illinois-based multinational electronic component manufacturer that recently announced plans to shut down a profitable plant in the southwest of France, laying off more than 250 workers. It is anticipated that production will be moved to China and Vietnam.

Our sister federation in France, the CGT, is sending a delegation of workers from the French plant to confront management at its annual shareholders' meeting this Friday in Lisle, Ill.

Please join our French brothers and sisters at this event and help us send a strong message to Molex management and shareholders.

## An Injury to One Is an Injury to All!

Meet the CGT delegation in front of Molex headquarters

**FRIDAY, OCT. 30 • 9 A.M.**

for a demonstration of solidarity with French workers  
trying to save their jobs.

Molex Inc.
