Dear M. Combes,

We greatly appreciate your interest in collaborating with the European Science and Technology Network on Unconventional Hydrocarbon Extraction.

We noticed that whilst sending your application, you have not submitted a CV as requested. Would you be so kind to send us your CV, outlining your experience in the field? We intend to draw up a balanced group of people for each of the Working Groups based on the input we receive.

Kind regards,

Dima

Dear Mrs. Combes,

We are nearly ready to kick off the work of the Working Groups (WG) of the European Science and Technology Network on Unconventional Hydrocarbon Extraction. We expect the first WG meetings to take place in the second part of February, in Brussels.

We are drawing up the membership list, and whilst we noted your interest in participating to the work of WG1, we also note that you have not yet submitted your CV as required (see <https://ec.europa.eu/jrc/en/uh-network/how-get-involved>).

If you would like to be considered for inclusion in the activities of WG1, please submit your CV no later than 31 December 2014.

Best regards,
Luca Gandossi

Subject: European Science and Technology Network on Unconventional Hydrocarbon Extraction -
Complementary Information Needed.
To: maxime.combes@gmail.com
Cc: JRC-IET-UHNETWORK@ec.europa.eu

Dear Mr. Combes,

We are currently finalising the membership lists for the two Working groups *under the [European Science and Technology Network on Unconventional Hydrocarbon Extraction](#)*, and we note that you have expressed interest in participating in their activities.

As you are perhaps aware, our aim in welcoming participants from the four main stakeholder groups covered by the mandate of the Network – industry, research, academia and civil society - entails ensuring a broad balance within the Working Groups, so that we can best guarantee a balanced representation in each Group. Further the professional experience and activities of the applicants are examined carefully in order to ensure the best match between the wishes of the applicant and the aims of the network.

To this end, I would ask you by the present to examine the information you have forwarded to us as some of the elements requested are either absent or incomplete.

I would be grateful if you could forward the complimentary information to me as soon as possible so that we can proceed with the application process.

Kind regards.

Giovanni De Santi.
